

CITY OF KENT, OHIO

DIVISION OF ENGINEERING

May 5, 2023

Greetings,

As someone who lives or works in the area along of North Mantua St. that includes Theodore Roosevelt High School and Davey Tree, you are probably aware of the high volume of traffic in the area and the safety concerns that it presents.

The City of Kent, Kent City Schools, and Davey Tree are partnering to explore safety improvements along this section of N. Mantua. In fact, making the roadway safer for motorists and pedestrians is part of Kent's recently released Climate Action Plan. This project is in the early stages and will focus on the area between Kent Roosevelt's driveway to just north of the Davey Tree entrance.

You are invited to join us for a public meeting to learn more about the project and provide us with input on what you see as the major safety concerns. **The meeting will take place on Tuesday, May 30, 6:30 p.m. in the cafeteria at Theodore Roosevelt High School.**

As I said earlier, this project is still in the development stages and your input is essential to coming up with a solution that will enhance this stretch of N. Mantua and benefit all who live and work in the area.

I look forward to seeing you on May 30. If you are unable to attend and have some comments to share, please feel free to contact me at 330-678-8106 or jim.bowling@kentohio.gov.

Sincerely,

James Bowling

Jim Bowling
Superintendent of Engineering
